

# Revisting anchor tag

In HTML, you can create an ordered list using the <ol> tag.

```
<a href="https://www.google.com/" target="_main">Google</a>
```

```
<a href="https://www.google.com/"  
  target="_main"><img></a>
```

# List in HTML

## Order list

In HTML, you can create an ordered list using the `<ol>` tag.

```
<ol>  
<li>Item 1</li>  
<li>Item 2</li>  
<li>Item 3</li>  
</ol>
```

## Unorder list
